

DynaTrail Dispatch Release Notes

This section contains the official release notes for the DynaTrail Dispatch platform.

Release notes document new features, improvements, bug fixes, and system updates as they are deployed to the platform.

Inside this section, you will find:

- New feature announcements
- Platform improvements
- Bug fixes and stability updates
- Performance enhancements
- System changes that may affect workflow

Reviewing release notes regularly helps brokers and carriers stay up to date with new functionality and improvements added to the DynaTrail Dispatch system.
